Make Fire Safety a Priority!

Each year more than 5,000 people are injured in fires and explosions on the job.* Keep extinguishers within reach to safeguard your workplace. OSHA standards require employers to provide proper exits, firefighting equipment, emergency plans, and employee training. A fire safety program is critical for employee safety and facility compliance — make sure yours includes fire extinguishers and smoke alarms.

For OSHA requirements for placement and maintenance of portable fire extinguishers, visit https://www.osha.gov/SLTC/etools/evacuation/portable_required.html
