KIMTECH

B Wipers for the WETTASK® Refillable Wet Wiping System An ideal alternative to using a spray bottle or open bucket with rag. Wipers are specifically designed to be compatible with quat disinfectants and sanitizers. They maintain the target disinfectant concentration and provide a more uniform application than is possible with a cotton rag. Simply add a roll of wipers and your own chemical solution to the WETTASK® disposable bucket with secure lid. Wipers dispense one at a time, preventing cross-contamination of the cleaning solution while reducing exposure to chemical vapors and splashes. Buckets can be prepared ahead of time and are easily transported, allowing you to spot clean germ zones several times a day.
